Art Unit

2629

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to 7/26/07.
2. ☒ The allowed claim(s) is/are 1-21.
3. ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) ☒ All b) ☐ Some* c) ☐ None of the:
 1. ☒ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.
THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

4. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
 5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
 - (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
 - 1) ☐ hereto or 2) ☐ to Paper No./Mail Date _____.
 - (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

Attachment(s)

1. ☐ Notice of References Cited (PTO-892)
2. ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
3. ☒ Information Disclosure Statements (PTO/SB/08),
Paper No./Mail Date 1/29/04
4. ☐ Examiner's Comment Regarding Requirement for Deposit
of Biological Material

5. ☐ Notice of Informal Patent Application
6. ☐ Interview Summary (PTO-413),
Paper No./Mail Date _____
7. ☐ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____

DETAILED ACTION

Supplemental

Drawings

1. The drawings were received on May 23, 2007. These drawings are accepted.

Allowable Subject Matter

2. This Supplemental Action provides a corrected reason of allowance, that states below.
3. Claims 1-21 are allowed.
4. The following is an examiner's statement of reasons for allowance: Claims 1-21 are allowed since certain key features of the claimed invention are not taught or fairly suggested by prior art. **In claim 1**, "a first resistance film that is formed on a surface of the first layer; a second resistance film that is formed on a surface of the second layer; and a power supply unit that is provided on the first resistance film, wherein the first resistance film and the second resistance film that are originally used for sensing a touch form an antenna". **In claim 17**, "a first resistance film and a second resistance film that are formed on two parallel surfaces of the first layer and the second layer, and are patterned so as to resonate at a predetermined frequency, the first resistance film and a second resistance film sensing a touch on the touch panel, further comprising an antenna". **In claim 18**, "Yagi-Uda antenna comprising transparent electrodes formed on a film having a first surface on which the first resistance layer is provided and having a second surface on which the second resistance layer is provided". **In claim 19**, "a first

Art Unit: 2629

resistance film that is formed on a surface of the first layer; a second resistance film that is formed on a surface of the second layer; and a power supply unit on the first resistance film, the first resistance film and the second resistance film sensing a touch on the touch panel, further comprising an antenna". In claim 20, "a first resistance film that is formed on a surface of the first layer; a second resistance film that is formed on a surface of the second layer; and a power supply unit that is provided on the first resistance film, the first resistance film and the second resistance film forming a plurality of antennas that resonate at predetermined different frequencies, and the transmit/receive unit performing ultra broadband wireless communication through the plurality of antennas". In claim 21, "a first resistance film that is formed on a surface of the first layer; a second resistance film that is formed on a surface of the second layer; and a power supply unit on the first resistance film, the first resistance film and the second resistance film sensing a touch on the touch panel, further comprising an antenna". The closest prior art Kitamura Tsutomu (JP 05-189191) teaches a liquid crystal display panel with touch panel is provided on the front side and a planar flat antenna is printed and formed on the rear side, and the flat antenna that is bent lead-wire antenna provided on the opposite side to the other three components, however, singularly or in combination with other prior art, fail to anticipate or render, the claimed limitations, such as, at least "the first resistance film and the second resistance film that are used for sensing a touch form an antenna".

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mansour M. Said whose telephone number is 571-272-7679. The examiner can normally be reached on Monday through Thursday from 8:30-6:00 P.M. The examiner can also be reached on alternate Friday from 8:30 a.m. to 5:00 p.m. EST. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard A. Hjerpe whose telephone number is 571-272-7681.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C. 20231

or faxed to: 571-273-8300 (for Technology Center 2600 only)

Hand-delivered responses should be brought to the Customer Service Window at the Randolph Building, 401, Dulany Street, Alexandria, VA 22314.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR
